LOCAL GOVERNMENT

PREFACE

In this issue of the *Local Government* Part of the *Statistical Register of New South Wales*, the comparative summary tables relate to 1955 (in a few instances, 1956 or 1957) and earlier years, and the detailed statistics published in respect of individual local authorities relate to the year 1955.

The previous issue was Part VI *Local Government* of the *Statistical Register* for 1954-5.

The statistics given in this publication should be read in conjunction with the *Official Year Book of New South Wales*. For the most recent statistics, the reader should refer to other publications of the Bureau, particularly the *Statistical Bulletin*.

LOCAL GOVERNMENT

EXPLANATORY NOTES

1. Local Governing Bodies in New South Wales comprise Municipal, Shire, and County Councils. Seventeen of the municipalities are proclaimed cities. With the exception of the Sydney County Council, all councils are regulated by the Local Government Act, 1919, as amended.

2. The statistics given in this publication are mainly financial, and include, *inter alia*, details of revenue, expenditure (from revenue and loans), capital indebtedness, property valuations, and rating. The comparative summary tables relate to 1955 (in a few instances, 1956 or 1957) and earlier years, and the detailed statistics in respect of individual councils (Tables 22 to 70) relate to the year 1955.

3. Local Government activities are classified broadly as follows:—

- (a). *Ordinary Services*. This group includes roads and footpaths, sanitary and garbage services, parks and reserves, council properties, housing, health and public services (for details see Tables 10 and 11). These services come within the scope of each council's general fund, and special and local funds which are similar in nature to the general fund.
- (b). *Trading Undertakings*. These are for the supply of electricity, gas, water, building materials, and the provision of abattoirs and sewerage. Separate funds are kept for each undertaking.

4. Particulars of Ordinary Services expenditure, as shown in the summary tables, are not presented in the same form as in the statements of revenue accounts prepared by councils. The accounts of councils are composite in character and show in combination expenditure from both revenue and loans. In the summary tables herein, expenditure from each source is shown separately—expenditure from revenue in Tables 8, 11, and 12, and expenditure from loans in Tables 14 and 15. By such means, particulars of councils are shown in a form which is more commonly used by public authorities.

5. The revenue and expenditure of trading undertakings are shown on a "profit and loss" basis, the same form as in the accounts prepared by councils.

6. The activities of individual councils are shown in the following tables, viz.:—

(a). *Municipalities and Shires* in Tables 22 to 62. Additional information is also shown for the cities of Sydney, Newcastle, and Greater Wollongong in Tables 1 to 21. Ordinary Services expenditure as appearing in Tables 25 and 49 is in the same form as in councils' accounts, and differs, therefore, from totals shown in the summary tables, which have been adjusted as described above. Expenditure on such services as parks, baths, markets, and property, which has been capitalised, is not included in these tables, but is shown in total in Tables 26 and 50.

(b). *County Councils (including the Sydney County Council and the Grafton and South Grafton Water Board)* in Tables 63 to 70.

7. Information relating to the Metropolitan Water, Sewerage, and Drainage Board and the Hunter District Water Board is shown in Tables 71 to 79.

* The metropolitan area as here defined includes the City of Sydney, twenty-nine suburban municipalities (named on page 14), and five suburban shires (named on page 44). It differs from the metropolis as used for general statistical purposes in that it includes the whole of the Municipality of Liverpool and of the shires of Baulkham Hills, Blacktown, and Hornsby, whereas only portions of these areas are included in the statistical metropolis.

† Not available; these valuations are not made by all shires.

‡ In addition, there are 49 county councils providing services over more than one municipality or shire. See Tables 63, 66, and 69.

No. 2. Municipalities and Shires: Valuations of Rateable Property, 1947 to 1957

The *Unimproved Capital Value*, as shown below, is the amount which the fee-simple of the land might be expected to realise if offered for sale on such reasonable conditions as a *bona-fide* seller would require, assuming the improvements thereon had not been made.

The *Improved Capital Value* is the amount which the fee-simple of the land, with improvements and buildings thereon, might be expected to realise.

The *Assessed Annual Value* is nine-tenths of the fair average rental of land with improvements thereon.

* Sinking funds of the City of Sydney and Sydney County Council are large, as most of their loans are raised for fixed periods with provision for repayment through sinking funds. They are comparatively small for other councils, which borrow usually on terms requiring repayment by yearly or half-yearly instalments.

† Comparison is affected by the amalgamation of municipalities and shires and by the formation of county councils.

* A number of councils did not hold elections in December, 1956, mainly because of area changes—see note ‡ on page 657 and note † on page 682 of Part VI *Local Government of the Statistical Register for 1954-55*. The figures of electors enrolled relate to all councils and include estimates for those in which elections were postponed. All other particulars relate to elections held in December, 1956.

† Includes the Lord Mayor, who is elected by separate ballot at the ordinary triennial elections.

‡ Includes five candidates for Lord Mayoralty.
